

THE PMP CERTIFICATION EXAM BOOTCAMP THAT REALLY WORKS.

There is high demand for PMP certified project management professionals. In fact, the average PMP earns over \$130,000 per year. But many people **(50%)** who take the PMP certification exam **fail their first try** and almost a third (30%) also fail their second.

In contrast, almost 100% of the participants in our Boot Camp have passed the PMP Certification Exam on their first try. (the dozen students who failed on the first try, who have taken it again, all passed on the second try).

This unusually strong pass rate for hundreds of people is based on the combination of the Crosswind PMP Certification Exam Success System material with our own proprietary framework and Agile methodologies.
